Protect Your Health with a Purex Nail Station

The dust generated whilst filing nails and the fumes given off by some beauty products can cause serious long term medical conditions such as occupational asthma if not controlled.

It is also very important that the salon complies with Health & Safety regulations (e.g. COSHH or OSHA) which state that an employer shall not expose staff to substances that are hazardous to health.

Shown in Black

The unique Aircare Purex 4-point extraction system

- Reduces the risk of clients and technicians breathing harmful dust & fumes
- Ensures that salon owners comply with Health & Safety Laws.
- Maintains a dust and odour free salon giving an advantage over competitors
- Removes acrid chemical fumes from the air.
- Helps to reduce sick leave and creates a better salon environment
- Operates quietly and efficiently and has excellent filter life to ensure low running costs

Four point odour extractor process

- Integrated lamp and air extraction arm
- Extraction cowl
- Variable extraction speed
- 2 filters: dust removal & odour removal
- Dimensions: 74H x 60W x 121.2L cm

Available in Black / White / Beech / Chocolate

Replacement Filters

5762	Carbon Block Filters	£105.00
5763	Pre-Filters Pack of 4	£20.00

For Delivery and Installation charges please call customer services

Downdraught Disc

A downdraught system pulls all nail dust down into the filter and away from your breathing zone.

Adjustable Arm

Evaporating solvent and chemical fumes are safely captured by an adjustable stainless steel arm with integrated work lamp.

Plenum Cowl

Pots and dishes containing chemicals can release fumes into the air. This is prevented by a plenum cowl positioned on the worktop.

Storage Drawer

Your Purex system even captures fumes from products in storage!

manicure stations
