Hapla 3D System for Plantar Ulcers

Applied in cases where a plantar foot ulcer is present and pressure redistribution is required. The pad is desirable for patients who wish to have continued mobility and where patient compliance is key.

Using 3 layers of HAPLA 10mm semi compressed felt and 5 cm CHIROFIX retention tape to effectively reduce pressure on Plantar Ulcers

The CD demonstrates how to prepare, cut and shape the presser relief padding technique.

CD supplied free on request

See page 33 for semi-compressed felt
