

Bentlon Patient Chairs

Podochair Platinum

Top model in the Podochair range. The Platinum version has a lot of the features of the Podochair Gold, but goes one step further.

- The leg support is a wide leg support on which both legs rest. This wide leg support is in line with the development that the podiatrist increasingly works in a different way.
- New working method; with the traditional approach the podiatrist first finishes working on one foot and then starts on the other foot. Today, however, each stage of the treatment is carried out on both feet one after the other. This is a more effective and more efficient working method.
- Every position required; the wide leg support is operated by means of a switch next to the seat that is used to adjust the height of the leg support electrically. The leg support can be extended so that each required length can be set.
- Height adjustment 55 to 100cm
- Dimensions: 210L x 80W cm
- Weight: 160kg
- **Choice of 12 upholstery colours, please specify when ordering**

Extra carriage to Northern Scotland & Offshore Islands

0761	Podochair Platinum	£2295.00
0752	Castors, set of 4	£56.00

Podochair Gold

This chair has all the features of the Podochair Silver, but has additionally a number of very special features.

- The Bentlon Podochair Gold has a mechanism to help the client get in and out of the chair: the seat tips forward and follows and supports the stepping in and out movement of the client.
- Foot operation controls the height, tilting and back support.
- Back support can be set completely horizontally so that the client can also be treated while in the lying position. This is desirable if the client feels unwell during the treatment of a serious foot problem. When removing hard skin from the heels, the client can lie on their stomach, making an improved work posture possible.
- Height adjustment 55 to 100cm
- Dimensions: 210L x 80W cm
- Weight: 160kg
- **Choice of 12 upholstery colours, please specify when ordering**

Extra carriage to Northern Scotland & Offshore Islands

0760	Podochair Gold	£2195.00
0752	Castors, set of 4	£56.00

Podochair Silver

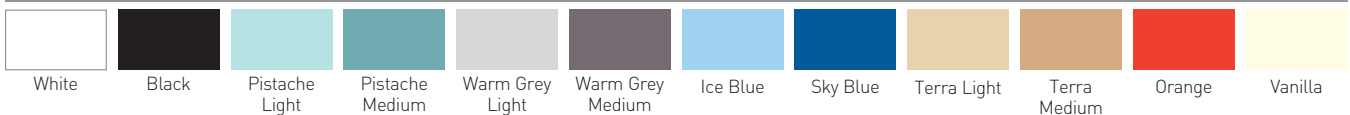

- Extremely easy to get in and out
- The leg supports can be folded away completely sideways so that the front of the chair is completely free
- Electrical height adjustment using a hygienic foot switch, 55 to 100cm
- With the upwards movement the chair automatically tilts slightly backwards so that the seat is very comfortable for the patient
- Back support is continuously adjustable with a gas compression spring. The support can also be completely flat.
- Leg supports have semi-automatic gas springs with the unique pull override operation. This means that you do not have to operate a lever to put the leg support up, you can set it to the correct height with one single hand movement.
- Upholstered with high-quality foam. The material keeps its shape and does not sag even after years of intensive use.
- Dimensions: 210L x 80W cm
- Weight: 65kg
- **Choice of 12 upholstery colours, please specify when ordering**

Extra carriage to Northern Scotland & Offshore Islands

0752	Castors, set of 4	£56.00

BENTLON UPHOLSTERY COLOURS

Bentlon Lower Arm Support

Fits above Bentlon Chairs

Lower Arm Support fitted into Split Leg section

- Supports the lower arm to prevent the muscles in the back and shoulders from having to support all the weight of the upper arms, lower arms and the hands
- The support can be set to a higher position allowing the Podiatrist to have a better view of the patients foot
- The Podiatrist will assume a more upright position of the lower back and neck, greatly improving the working position and reducing the fatigue of the shoulders and arms
- The Lower Arm Support has a removable collector that is easily removed for cleaning and can be fitted to either the left or right couch leg support to the Silver & Gold Bentlon Podochairs shown above and on the following page

0750	Lower Arm Support, for Single Leg	£145.00
0778	Lower Arm Support, for Split Leg	£145.00

Gerlach Patient Chairs

Gerlach Patient Chair S 1.2

Specifically designed to fit perfectly in the smallest Clinic or Surgery as its working area is just 150 x 65 cm

Doherty Kendal Bins

Doherty Kendal premium range of high specification bins. The four bins in the range have been designed specifically to suit the requirements of the modern surgery, residential, nursery care home or hospital

- Pull out handle for easy movement
- Hands Free, the bins are designed so that it is difficult to open them by hand, forcing the user to use the foot-operated pedal; **thus minimising the risk of cross contamination**
- Silent Closing, the lid closes quietly and slowly. An added benefit of this feature is a minimisation of the aerosol effect that can cause a spread of harmful bacteria when a traditional lid closes
- Large Pedal, each bin is fitted with a specially designed wide pedal, which allows the sack holder to be approached from both the front and sides

- All bins come with a choice of lid colours white for domestic waste and yellow for clinical waste
- Rounded Corners, no sharp edges
- Rubber Feet, to stop the bin marking the floor
- Air Gap, allows the free movement of air beneath the bins stopping the build up of stagnant air that could encourage the growth of bacteria
- Two Year Warranty, each bin comes with a comprehensive two-year warranty
- All the bins are fully fire retardant to HTM83
- Both the 50 and 70 litre models are fitted with anti-static wheels as standard

1 Kendal 20 Litre Small. Smallest bin in the range with a solid body
Dimensions: 57.5H x 22W x 35D cm

0311	Kendal Bin 20 litre, White lid	£101.00

VersaFile Mobile Storage System

VersaFile and Highline offer the most flexible of all storage systems in both mobile and static formats. They are composed of various modules which contain up to three different drawer types to provide a mix that can be specified to meet the exact storage requirements of the most demanding practitioner. The system provides style with proven durability, making it a highly cost effective alternative to traditional less flexible storage systems.

Manufactured with a combination of ABS, steel and very high quality plastics, the systems are easy to keep clean and is resistant to most stains.

The drawer units themselves come with a 20 year guarantee.

Being a modular system, Versa File installations can be tailored to fit in almost any space available and come with a choice of drawer front colours to blend with the surrounding decor.

For full details on dimensions and prices, please phone for assistance where we can provide you with specific details tailored to your practice.

3 Tier / 1 Wide, finished in Silver Grey, code 1415

Highline Mobile Storage System

Highline mobiles are designed to meet exactly the storage requirements of each and every individual. The mobiles consist of modules which can contain sets of 4 different drawer types. You simply specify your desired mix..

A Choice of Two Heights

- 2 tiers designed specifically for those who work mainly sitting down
- 3 tiers designed for those who are mainly standing up
- Available in 3 colours as shown for the Versafile colour chart on page 17

Robust yet Stylish

Highline modules are engineered to last. Constructed from a combination of aluminium, steel and high quality plastics which are resistant to most stains. The drawers carry a 25 year guarantee against breakage. The drawer fronts are available in a choice of 3 colours with White work top
